

Press release

First Sydney GreenDay a joint event for ebm-papst and TAFE Ultimo

What drives sustainability in HVAC&R? Together with TAFE Ultimo, ebm-papst A&NZ is attempting to uncover this topic at the upcoming GreenDay in Sydney. The event will take place from 8am to 2pm on Thursday 27 July 2017 at TAFE Ultimo's Turner Hall, 19 Mary Ann St, Ultimo NSW 2007.

The networking event, now in its sixth year, brings together practitioners, educators and students from the HVAC&R industry to exchange new ideas and successful projects driving industry innovation.

Speakers from the industry, government and education sectors will share their insights on the drivers for energy efficiency for HVAC and refrigeration systems. Policy-focused presentations will be held by government representatives such as the City of Sydney and the NSW Office of Environment and Heritage. The second half of the morning will be dedicated to 'energy efficiency in action', in which end users and contractors such as AMP Capital and Grosvenor Engineering Group will their share success stories.

Everyone active in the HVAC&R industry is welcome to attend the event, including consultants, facility managers, contractors, end users, building/business owners, HVAC apprentices and students. Attendance is complimentary but registration is required, via <http://greenday2017.eventbrite.com>.
